Rover DEIS Wetland Comments 3-23-16MB.docx

Hi Virg,

I made some minor edits and added a paragraph to the cumulative impacts section. Please let me know if you have any questions.

Thank you Melanie. I've attached a version of the latest draft of the entire letter w/enclosure and used blue font in those areas that deal with streams/wetlands/404 your quick perusal. The draft isn't finished yet . . . I'm still consulting w/R3 and my counterpart at headquarters . . . so if you want any changes/additons made I can still make them today or tomorrow . . . just let me know. At the very end of the letter enclosure for commetns regarding the DEIS section" 4.13 Cumulative Impacts" Is there anything your want addressed here for streams/wetlands?

Thank you, Virg

Hi Virg,

I was off on Friday so I just read through the attachment, and the language based on my comments looks good. I hope you were able to get the comments out.

Thank you,

Melanie

Hi Melanie,

The attached file contains only the current draft (03-25-2016) of the portions of the enclosure for EPA's DEIS comment letter that deal with 404/wetlands/streams/mitigation. I've tried to capture all of your comments/concerns. Please review and let me know if you want any corrections/changes/additions/deletions, ASAP.

Thank you.

Virg

Hi Virg,

I just received your voicemail. I looked up that reference for the bullet that you mentioned and I couldn't find where I read that statement either so I'm omitting that bullet. I don't think it is necessary. I also found a typo in the first bullet.
